

DEMENTIA & DISABILITIES SUPPORT GROUP

Calling all families, friends and caregivers

Are you a caregiver of a person with developmental disabilities who is also diagnosed with dementia? Do you know someone who is?

AHRC Nassau in partnership with the Alzheimer's Association of Long Island is seeking to:

- 1) Establish the regional need for supports that specifically address the needs of caregivers/family members of people with developmental disabilities who are also diagnosed with dementia, and
- 2) launch the first support group of its kind to address the specific needs of these caregivers

Dementia is a progressive disease and a support group can offer many benefits to caregivers to help them through these changes.

Share your story

Help yourself to help others

You are not alone

Hope for the future

Together we can make a difference

AHRC NASSAU & THE ALZHEIMERS ASSOCIATION

If you are interested in joining the first support group of its kind to support caregivers/family members of people with developmental disabilities and dementia, please respond to

www.ahrc.org/dds

and to tell us what you would like to gain from such a group. Please reply no later than October 4th.

Questions? Contact Julie Cannet at 516.626.1075 Ext. 5344
